LITTLE GIANT TURNED DOWN

City Council Declines to Permit
Mining Company to Operate
In Canyon.

ON CITY ATTORNEY'S ADVICE

Number of Petitions Aced Upon at
Monday Night's Session—Fire
Chief's Request.

Various petitions of minor importance were passed upon by the city council last night, the most important decisions being a refusal of the right to do mining in City creek as requested by the Little Giant Mining company and the granting of Building Inspector Hirth's proposal to revise the building code.

The verdict in the matter of mining in City creek was the result of a communication from the city attorney who said that the council had no right to permit the use of the watershed of the canyon for such a purpose as a certain amount of pollution was bound to result.

The request from the chief of the fire department for \$1,600 for an automobile combination hose, chemical and pump outfit was referred to the committee on estimates and appropriation and the fire committee.

Some time ago Brown and Sanford notified the council of an intention to build a water tank on Big Cottonwood creek, but the city attorney was instructed to inform them that they must in no case take out water from the lakes after they have reached low level.

TWO STEEL BRIDGES. Through the city engineer the Utah Light & Railway company submitted estimates of cost of two steel bridges over the Jordan river, one at Second South and one at Seventh South, \$12,159.35 and \$14,967.05 respectively.

Saveral councilmen think that the city's portion, from twenty-fourth to twenty-sixth, of the matter was referred to a letter from Mr. Harold J. Schaefer offering to sell 50,000 gallons of water a day to the city was referred to the committee on estimates and appropriation.

The application of J. C. McCreary for a drugist's license at 501 Seventh East street also went to the committee on licenses with the applications of six firms acting as brewers' agents and subject to a tax of 10 cents a barrel on all beer sold in the city.

R. B. Matthews, William Fassler and W. A. Holman were appointed to patrol City Creek canyon.

The petition of the Farmers' Grain and Milling company for a spur track along South Temple between Eighth and Ninth West streets was referred to the Second ward councilmen, the city engineer, the city building inspectors, and the city health inspectors.

The city is now a member of the League of American Municipalities. Mr. Wood having been the only protestant. R. H. Hirth, city building inspector, and George F. McGonagle, city engineer, were instructed to prepare an amendment to the city building code to cover the erection of steel and concrete buildings. By enforcing the placing of false floors during construction, it is hoped many accidents will be avoided.

"IS LIFE WORTH SAVING?" Mrs. Mollie McKenney, Prentiss, Miss, writes that she had a severe case of kidney and bladder trouble, and that four bottles of Foley's Kidney Remedy cured her sound and well. She closes her letter by saying: "I heartily recommend Foley's Kidney Remedy to any sufferer of kidney disease. It saved my life."—Schramm-Johnson Drugs.

Bathing at Saltair will cure any ill.

MORAN PLANT DESTROYED. Rock Crusher at North Salt Lake Visited by Bad Fire.

The buildings and elevators at P. J. Moran's rock crushing plant, in the vicinity of the Bamberger quarries near Ninth North and Second West streets, were destroyed by fire last night, causing a loss of close to \$3,000.

The fire was first discovered when flames were seen shooting from the base of the stone elevator. In response to an alarm Fire Chief Glore with No. 2 hose wagon and truck hurried to the scene but found that their efforts were futile because of the inaccessibility to water. The steamer and additional hose were sent for, but before they could arrive the buildings, outbuildings and rock bins were enveloped in flames. All the woodwork of the plant was entirely consumed by the flames and the machinery bent and twisted so as to render it useless.

As the plant had not been in operation for some time the origin of the fire is a mystery.

Kokos is marked with leprosy blotches, but according to Dr. Paul there is little danger of infection of the disease except by abrasion and contact. Kokos will be held in isolation pending the action of the federal authorities.

THESE PIES OF BOYHOOD. How delicious were the pies of boyhood. No pie now ever tastes as good, what's changed? The pie? No, its you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Dr. E. C. Smith's Kidney Pills.

Stomach, Liver, Kidneys, Bowels—Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at Z. C. M. I. Drug Dept., 112-114 Main St., Salt Lake City.

LESS MONEY WILL BUY JEFFERSON HEIGHTS BUTTERWORTH,

Utah Postmasters' Association to Make Presentation to Mrs. Dalley of Summit, Iron County.

A handsome gold medal will be presented by the Utah Postmasters' association to Mrs. Lettie B. Dalley, postmistress at Summit, Iron county, as a mark of esteem for the many years of faithful service she has performed in the postoffice department.

Mrs. Dalley was the only representative in the state to attend the recent postmasters' convention at Ogden, she being 75 years old on the day of the opening of the convention, on July 6. She also traveled farthest to attend the convention at a distance of over 300 miles, from the little town of Summit, 35 miles being traveled by stage. She was the only representative from Iron county.

Mrs. Dalley has spent nearly 30 years in the service of the government, 10 years of which she was assistant to her husband, who was postmaster at the time of his death. Later she assisted her son, who was postmaster at Summit for a number of years. In 1905 Mrs. Dalley was appointed postmistress of Summit, and has since that capacity ever since. She says she will serve until she is 80 years old, when she wants to retire. Mrs. Dalley was born in 1834, and lived one year in Salt Lake. She then moved to Iron county, where she has resided for the last 55 years. She is now visiting with Bert Dalley, the Salt Lake Insurance man, who is her son.

Utah's greatest asset is Great Salt Lake. Take advantage of bathing.

JUDGE W. A. KINNEY HOME. Former Salt Lake Attorney on a Trip From Honolulu.

Judge W. A. Kinney, formerly a practicing attorney of this city, now a citizen of Honolulu, is visiting in Salt Lake, accompanied by Mrs. Kinney, and will start east today.

Speaking of the crop conditions on the islands, the judge says sugar cane is a little short, but the higher prices more than offset the shortage. The annual sugar production is 500,000 tons, valued at \$40,000,000. Pineapples, plantains, coconuts, etc., are also produced. He says four months ago between 2,000 and 3,000 Russians came to the islands from Vladivostok, some of whom were nihilists.

Judge Kinney was judge advocate for the United States in the trial of Queen Liliuokalani and, as he says, "I tried her, prosecuted her and convicted her and I am now her attorney. Of course there was never anything personal in the matter."

ELKS AT DETROIT. A message from Detroit announces the arrival in that city of the Salt Lake delegation of Elks. The Utah contingent was accorded a hearty welcome by the reception committee, being met by a brass band and a squad of police, and escorted to their hotels. The party afterwards took a trip to Bois Blanc and in motor cars to Belle Isle, where they were entertained and luncheon by the members of the Country club. Last night a band concert was given in honor of the Utah delegation.
